

## Sec. 522 APPLICATION FOR GRADING PERMITS

An application for a grading permit must contain sufficient information to enable the Zoning Administrator to determine that the applicant proposes to take such measures as are necessary to meet the requirements of the preceding section. Where necessary, the Zoning Administrator shall require the submission of topographic maps, soil boring reports, or other necessary technical information. Upon receiving an application meeting the requirements set forth in this section, and the fee required in Sec. 520, the Zoning Administrator shall issue a grading permit to the applicant. No grading permit shall be valid except for work described in the application. The Zoning Administrator shall impose such conditions or requirements in granting the permit as may be necessary to insure compliance with the requirements of the preceding section, and shall impose such limits on working hours and time limits for completion of operations and various stages thereof as may be necessary to minimize incompatibility with nearby land uses, and failure to take any action or refrain from any action specified either in the application or on the face of the permit shall constitute a violation of this ordinance.
